Introducing...

SECRETS OF SUCCESS THROUGH SELF-KNOWLEDGE

This is a course that will allow you to be more successful in your personal and professional life and on your own terms, not on society's (which is warped!).

To be successful in any area of life you have to **KNOW YOURSELF**.

1. Because you can't make any decisions in a vacuum. Without self-knowledge you simply don't have enough information to decide on your career, or life partner.

2. After you know yourself, you have to accept yourself. We have only

one short life and we have to play our best cards all the time. (But you have to know what those cards are!)

3. Then you must love yourself. You'll need that to gain self-esteem, strength, and will-power be able to face what the world throws at you with confidence.

IS THIS COURSE RIGHT FOR YOU?

You can find out the answer in 10 seconds.

Just answer these questions, Yes or No.

Do you feel you should be more successful?

Do you see other people getting ahead of you but you offer more?

Do you choose the wrong people to date (or marry)?

Do you want to change jobs but don't know what to pick?

Do you feel dissatisfied with your life circumstances?

Do you feel you are running out of time to change your life?

If you answered yes to any of these, this course is for you.

If you answered yes to more than one, this course is definitely for you!

IT'S NOT YOUR FAULT

It is not your fault that you haven't figured out what your life should be like yet. It is complicated. Most people **never** do it but you can do it in six weeks. You have a path to follow and you can find it.

It's just that you have been following the wrong path or no path.

Finding the right path involves **Self-knowledge**.

Once you know yourself, you are going to get a lot better--and faster--at making the best decisions for yourself in life --including choosing the right career and the right life partner.

Secrets of Success through Self-Knowledge is about finding out who you are and what you want out of life.

The “secret” part? Yes, it is a secret to you now but it won’t be after you take the course.

My promise to you, my **GUARANTEE** to you, is **not** that you will find the perfect career after taking it (although that might happen!) but that you will know what your gifts, talents and abilities are and you can then choose a career that uses them.

You might change your focus, but you will never regret the path this course takes you on.

I assure you, that if you do as I suggest (and I’ll help you), at the end of six weeks you will not worry about what to do in your life again.

- You will know how to reduce procrastination.
- Use your time well.
- Set goals and achieve them.
- Know what your values are.
- You’ll know about people too, not just yourself.

For example, you will never date an inappropriate person again.

Does this sound impossible? It's not and I'll prove it to you inside the course.

We have to meet and investigate the world and react to it with our values, ideas, concepts, etc. So, yes, you will have the capacity to not date the wrong people. You'll know yourself better and will be able to "see" the way to selecting a mate well.

In six weeks you will know yourself well enough to be able to make (often) fast, accurate decisions about choices in life.

NOTES, QUESTIONS and CHOICES.

1. This course is six weeks. Some people prefer to do it in 12 weeks because they are working, in school or both. You can do that. WE CAN DISCUSS IT ON THE TELEPHONE.

2. We can do this in a group. Some like that because, of course, it is less expensive. But in order to do that I have to have a group! I'm happy to do it and I have done it many times. The problem is, most people want to do it one-on-one. They prefer the privacy and the individual attention from me. I can do that only with a limited number of students.
